

Basel Forum 2016 Workshop in Asia-Pacific Region

(The 10th NIES Workshop on E-waste)

Circular

KOREA BASEL FORUM
(사)한국바젤포럼

Objectives

Asian countries have been facing on e-waste issues such as illegal trade and inappropriate recycling leading to environmental pollution. Many Asian countries have strengthened the policy and operation for illegal trade prevention and launched their e-waste management regulations. However, they still have many problems such as increasing e-waste generation and collection by informal sector. They also have limited capacity of appropriate recycling facilities for e-waste and related end-of-life (EoL) products such as batteries and fluorescent lamps.

To promote academic interchange in the fields of implementation of the Basel Convention and the environmentally sound management of hazardous and other waste in Asia and the Pacific, "Basel Forum in Asia-Pacific Region" was initiated by Basel Convention Regional Center for Asia and the Pacific (BCRC China) Korea Basel Forum and National Institute for Environmental Studies of Japan in 2013. Since 2013, Basel Forum meetings have been held once a year in China or Korea, to share knowledge and promote mutual understanding in these areas.

In order to share the latest knowledge regarding transboundary movement (TBM) and management of e-waste and related EoL products and to understand research needs for promoting environmentally sound management (ESM) in this region, NIES will organize the "Basel Forum 2016 Workshop in Asia-Pacific Region" in Kyoto, Japan together with our partner of Basel Forum in Asia-Pacific Region. At this workshop, the following topics will be discussed: 1) Knowledge sharing of recent control and practice of TBM regarding e-waste and related EoL products in Asian countries, 2) Understanding recycling capacities and current TBM situation and exploring solutions in the regional scale, and 3) Related research needs.

This workshop will be held as the side event of EcoBalance 2016 (Oct. 4-6, Kyoto TERRSA). We look forward to your participation in the workshop!

Date

October 3, Mon, 2016

Venue

Kyoto TERRSA

(Kyoto Citizen's Amenity Plaza)

Shinmachi Kujo, Minami-ku, Kyoto 601-8047, Japan

Tentative agenda

Time	Session/Presentation title/Content	Presenter	Affiliation
13:00	Registration		
13:10	Opening remarks	Atsushi Terazono	NIES, Japan
	Session 1: Recent control and practice of TBM in Asia Facilitator: Michikazu Kojima		
13:15	Recent control and practice of TBM in Japan and others	Michikazu Kojima	IDE/JETRO, Japan
13:35	Recent control and practice of TBM in Korea	Seung-Whee Rhee	Kyonggi Univ., Korea
13:55	Recent control and practice of TBM in China	Lizhe Duan	BCRC China, China
14:15	E-waste management in Vietnam: Facts, figures and perspectives	Nguyen Duc Quang	Hanoi Univ. of Science and Technology, Vietnam
14:35	Prospect of Thai WEEE: Implications for TBM and ESM of e-waste	Panate Manomaivibool	Mae Fah Luang Univ., Thailand
14:55	E-waste management and TBM in India	Amit Jain	IRG Systems South Asia Pvt. Ltd., India
15:15	Discussion		
15:25	Break		
	Session 2: Recycling facilities and management of e-waste and other EoL products (Round table) Facilitator: Atsushi Terazono		
15:40	ISO Guidance Principles for a sustainable management of secondary metals: focus on the emerging and developing economies	Sonia Valdivia	WRF
16:00	Recycling facilities and TBM in Asia	Atsushi Terazono	NIES, Japan
16:15	Round table discussion		
17:15	Closing remarks		
17:20	End		

This workshop is supported by supported by the Environment Research and Technology Development Fund (3K143010) of the Ministry of the Environment, Japan.
