LEGAL FRAMEWORK

- The Air Law of Mongolia, which was entered into force on 31 March 1995 also obligated related government authorities to report all data on sources of greenhouse gases and to prepare the GHG inventories, including emissions by sources and removals by sinks.
- The Manual of Procedures is also an important national legal framework for preparation of GHG inventories in the country.

AIR LAW OF MONGOLIA

The Article 16 of the Air Law of Mongolia declared that

The Designated Professional Authority shall prepare national inventories of GHG emissions and removals in accordance with the National Manual of Procedures approved by the Central Government Organization responsible for Environmental Matters

DESIGNATED PROFESSIONAL AUTHORITY

- Ministry of Nature and the Environment of Mongolia should appoint the Designated Professional Authority (DPA) responsible for preparation of GHG inventories
- DPA has responsibilities to prepare National GHG Inventories on behalf of the Government of Mongolia.
- Today, the National Agency for Meteorology, Hydrology and Environment Monitoring of Mongolia is caring the responsibility of DPA

RESPONSIBILITIES

- In preparation of GHG inventories, all related ministries and agencies, institutions and private companies, whose activity data and information are necessary for estimating emissions by sources and removals by sinks, are obligated to provide the DPA with all data and reports of their activities for the certain year.
