

Transport Group Discussion

INTRODUCTION

Kohei Sakai

***Greenhouse Gas Inventory Office in Japan (GIO),
Center for Global Environmental Research (CGER),
National Institute for Environmental Studies (NIES)***

WGIA9 Transport WG
14 July 2011

Background Information

- With the increase in the number of automobiles in Asia, GHG emissions from the transportation sector has been rapidly increasing.

WGIA7 ---Energy WG

- Few countries mention topics relating transport statistics.
- e.g. Dr. Va (Cambodia) introduced that statistics for domestic aviation and national navigation are not available for the year 2000.

Transport WG in WGIA 9

- Participants present an overview of GHG emissions with a focus on CO₂ from this sector in the member countries and exchange information on details of estimation methodologies and mitigation measures of each country.

Transport WG in WGIA 9

- Theme: *Estimation of CO2 emissions from Transport Sector*

Presentation and Discussion Points

- Current Country Status for Transport
 - Estimation Method
 - Statistics Development
 - Issue and Challenge
 - Mitigation Action
- Chair: *Taka Hiraishi*
 - Rapporteur: *Kohei Sakai*

Time Schedule

WGIA9 Day 2, 13:30~17:00

➤ 5min. **Introductory Presentation**

➤ 20min. **Mr. Kohei Sakai (Japan)**

GHG emissions, statistics and mitigation for transport sector in Japan

➤ 20min. **Dr. Agus Gunawan (Indonesia)**

Indonesia SNC GHGs emissions

from Transportation sector (part of Energy sector)

➤ 20min. **Ms. Hnin Hnin Aye (Myanmar)**

Transport Emissions in Myanmar

➤ 15min. **Question & Discussion**

➤ 20min. **14:50-15:10 ----Coffee Break----**

➤ 10min. **Mr. Kohei Sakai** Results of Questionnaire and Discussion Point

➤ 90min. **Group discussion, Make WG Report for Wrap-up Session**

Summary for Transport WG

- What do you want to discuss in WGIA10 and in future WGIA ?
(including other than Transport)
